Hello! I can't hear you! Hello!!! Thank you. My name is ○○. I will talk about My Best Memory. One of my dreams was to be the marching band conductor at the G6 sports day. To become a conductor, I needed to have an audition. In the G5, I practiced so hard every day that my arms got hurt. The day of the audition result had come. A teacher called my name. I was so happy that my dream came true. After that, I practiced harder with the other conductors than ever.

At the sports day, I was nervous because conductors get a lot of attention. But I did my best and it was a great success. I am happy if you see me and want to become conductors. Thank you for listening.
